

July 23, 1957.

Mr. Emil Gradert
Wyoming Water Commissioner
Fort Bridger, Wyoming.

Dear Mr. Gradert:

RE: BURNT FORK

Don Norseth and Clifton Johnson from this office will be in the Burnt Fork Area the week of July 29-August 2, for the purpose of setting up water distribution structures and schedules for Burnt Fork Creek. They would like your assistance in deciding on a proper and agreeable place and the type of structure needed for measuring the water, to enable proper division between the Wyoming and Utah users.

They will leave word at Louis Stoll's place as to where they can be reached while in the area.

Yours very truly,

Wayne D. Criddle
STATE ENGINEER
